- **Stone/Glass Vacuum Cups** with standard height of 105mm.
- **No longer damage** your \$300 tool nor your \$500 cup when they collide.
Now your \$800 mistake costs you zero, when using our BVC SS series cups
Just install the foam gasket in seconds, after running into the rubber lid.
- **Too much damage?** Just replace the rubber lid
in 30 seconds for as low as \$79.00
- **Drop the cups on the table?** No problem. No damage
to the cup or your expensive aluminum table.
- **Holding power as much as double** to your existing cups.
- **No foam gasket needed**, only if the cup has been damaged.
- **Zero leaks** with an absolute perfect rubber seal.
- **Rubber tops and bottoms** are identical and interchangeable.
- **BVC patented modular design for strength, made in the USA.**

Cost savings per year vs. others:

- | | |
|-------------------------------|----------------|
| • Moving parts | \$700.00/month |
| • Replacing damaged tops | \$150.00/month |
| • Replacing/recondition tools | \$100.00/month |
| • Replacing foam gasket | \$20.00/month |
| • Shipping twice the weight | \$10.00/month |
| • CNC table reconditioning | \$20.00/month |

You save \$12,220.00 per year
